

Air 1 is a valuable and wonderful radio station that my family enjoys and RELYS on to present safe and entertaining music and information. Their values are wholesome and I am assured that no age inappropriate material will shock me or my children while we enjoy the music & commentaries. We would be devastated to lose Air 1 as our station as we listen to Air 1 95% of our radio time. My 10 year old daughter enjoys singing along and I know that she's not voicing lyrics about sexual content or other quick to grow-up lyrics from today's pop stars. You must give Air 1 priority to keep on doing what they do and to enforce values and ethical morals to our families today. Thank you!
